

PARENT PACK HELP

Your Parent Pack must be completed prior to your child's visit to Pali Institute, and can be accessed at:
<http://www.paliinstitute.com/parent-corner/parent-pack-login/>

LOGGING IN

- You will receive your login and password information in an email from Pali Institute. If you have not received your login information, please contact your school or Pali.
- We do not use the letters "L" or "O" in the login and password codes. Only ones and zeros are used.
- Once logged in you will be asked to change your password. Please save the new login information in a secure location.

HEALTH FORM

- The pages prior to the health form provide an overview of our program and answer many frequently asked questions.
- On the health form you will be asked for contact information, insurance information, health history information and medications taken. Save time by assembling this information before beginning your Parent Pack.
- To prevent lost information, click on "save and next".

SUBMISSION

- All fields marked with a red asterisk* must be completed before submission will be allowed. When finished filling out all these fields, click "save and next" to confirm completion and then click "submit".
- After submission, a PDF of your parent pack will be emailed to you at the email address you provided.
- Once your parent pack is submitted, you will not be able to access it again. If you have questions or need to make additional changes, please email us at visittingschools@paliinstitute.com or call (909) 867-5743.
